HOPAX

Company Profile

Since it was founded in 1975, Taiwan Hopax Chemicals Co., Ltd. has been a specialty chemicals manufacturer for high-tech industry. In order to continue its success in providing VALUE products and services in specialty and fine chemicals throughout the world, Hopax allocates more than 7% of its revenue for developing advanced technologies and innovative products.

The endless efforts have paid off handsomely, for example, HOPAX has successfully developed several new business divisions through the effective integration of its own technologies. Hopax have developed over 150 new products in the last ten years, which are distributed by three divisions:

1. Fine Chemicals (for bio-technologies, colour imaging, pharmaceutical and electronic industries).
2. Paper Additives and Water Treatments.
3. Stick'n Repositionable Self-stick Products.

More than 20 patents in most of the major global markets now cover the innovated products. All the divisions are now able to operate according to ISO-9001 and ISO-14001 standards. In year 2000, the Taiwan Government honoured Hopax as one of the top 30 best performance related industrial companies in Taiwan, for its excellent performance in "Technology Innovation", "Automation Production", "Quality Assurance", "Environmental Control" and "Global Competitiveness". We work hard to deliver the values of INNOVATION, QUALITY, SPEED and FLEXIBILITY. Hopax, like a growing tree, has been enjoying high growth rates during the past five years. We appreciate all the support from our business partners and we really like to invite all our partners to share the VALUE we can deliver and to enjoy success with us.

stick'n™

Based on a strong backbone of knowledge the fundamental essence of Sticky Notes

HOPAX is renowned for being an expert in paper-making chemicals, with a long history of providing a full range of chemical solutions for our customers' paper mills, in response to various paper manufacturing requirements. This is the foundation stone for creating the future development of Stick'n repositionable notes.

"Gaining a through understanding of the characteristics of different types of paper became one of our major competencies. In addition to that, our knowledge of chemicals, with our core competence in emulsion polymerization adhesive technology, enabled us to achieve the perfect combination of paper and adhesive; thus, the creation of Stick'n sticky notes!" said Dr. Alex Kuo, the CEO of HOPAX.

New Identity and Value

For the past 32 years, Stick'n has built a solid foundation by offering a variety of innovative self-stick products to our customers. In 2011, we moved forward with the renewed energy and confidence that the fresher, more modern and colorful Stick'n logo visually represented. We developed our commitment to our new slogan, "Sticking Close to You," which reflects the essence of the brand promise: to provide creative products which can change how we live our lives, as they become assistants, helping people to enjoy more wonderful and convenient ways of communicating messages to one another.

The rebranding not only conveyed the Stick'n values to customers, but also successfully increased sales to our global business partners, as a result of higher brand awareness.

Brand Story

Innovate with Stick'n

Stick'n is well recognized as one of the most innovative partners for many of our customers when they aim to grow their business. Stick'n established this presence by insisting on inventing at least three new products annually since 1987. Film Index and Clearnote™ were the first of many breakthroughs in extending paper-based sticky notes to transparent and writeable plastic material. Self-stick Infoboard™ changes our perception from notes that are sticky, to creating a surface that something can be stuck on to. "Penfree" Notes provide a note that does not require a pen!

Over time, Stick'n has developed from modest beginnings to become the second-largest sticky notes manufacturing company in the world, with the reputation of "always offering something new".

Join Us

We are dedicated to bringing more innovative products to consumers and customers, with continuous quality improvements. In addition, our Partnership Marketing Service Development Program has been developed to provide support to our distributors worldwide. Many of the Stick'n partners have used the marketing materials that we have created to achieve a higher sales; this set of versatile tools enhance communications to consumers.

With the best interests of our customers at heart, we are poised to fulfill your needs, today and in the future. We welcome you to join us.

Repositionable without leaving residue
Includes a high quality Tracing Sticky Note

INSTRUCTIONS:

- Place tracing paper on the top of the dinosaur, trace along its outline with a pencil or fine pen, then color the dinosaur. Alternatively, simply color the dinosaur without tracing the outline.
- Cut it out.

stick'n™

DESIGNER COLLABORATION

The Stick'n brand is deeply rooted in creative product development. Inspired by the vintage buildings of Taiwan, inBloom transfers the interior design elements into textile printings. The collaboration between Stick'n and inBloom aims to present aesthetically pleasing stationery. Retro is the new modern. Why not add an artistic touch into your daily life?

in Bloom
印花樂

ABOUT inBloom

In 2008, three young creators established "Studio inBloom" in Taipei. "We design pattern, printing fabrics, and living accessories. Our design inspirations come from the life experiences in Taiwan, the memories, the environment care, and the ignored daily things. We love the nostalgic idea; try to use to help us to create new creatures. We have a young team, full with energy, imagination, and possibility. We accept any challenge; expect the opportunity to collaborate with other teams."

Step Notes

- Patent design of Stick'n
- Enjoy 4 colors and sizes notes in one pad
- Features vintage ceramic tile and crested myna patterns

Combination of sizes and colors for all your needs.
