Sticking Close to You

HOPAX

Repositionable Self-Adhesive
Technology

Company Profile

HOPAX

ISO 9001, ISO 14001, ISO 45001, ISO 50001

Since it was founded in 1975, Taiwan Hopax Chemicals Co. has been a specialty chemicals manufacturer within the high-tech industry. In order to continue its success in providing VALUE products and services in specialty and fine chemicals throughout the world, Hopax allocates more than 7% of its revenue for developing advanced technologies and innovative products.

The endless efforts have paid off handsomely, for example, HOPAX has successfully developed several new business divisions through the effective integration of its own technologies. Hopax have developed over 150 new products in the last ten years, which are distributed by three divisions:

1. Fine Chemicals (for bio-technologies, colour imaging, pharmaceutical and electronic industries).
2. Paper Additives and Water Treatments.
3. Stick'N Repositionable Self-stick Products.

More than 20 patents in most of the major global markets now cover the innovated products. All the divisions are now able to operate according to ISO-9001 and ISO-14001 standards. In year 2000, the Taiwan Government awarded Hopax as one of the top 30 best performance related industrial companies in Taiwan, for its excellent performance in "Technology Innovation", "Automation Production", "Quality Assurance", "Environmental Control" and "Global Competitiveness". We work hard to deliver the values of INNOVATION, QUALITY, SPEED and FLEXIBILITY. Hopax, like a growing tree, has been enjoying high growth rates during the past five years. We appreciate all the support from our business partners and we invite all our partners to share the VALUE we can deliver and to enjoy success with us.

Based on a strong backbone of knowledge the fundamental essence of Sticky Notes

HOPAX is renowned for being an expert in paper-making chemicals, with a long history of providing a full range of chemical solutions for our customers' paper mills, in response to various paper manufacturing requirements. This is the foundation stone for creating the future development of Stick'n repositionable notes.

"Gaining a thorough understanding of the characteristics of different types of paper became one of our major competencies. In addition to that, our knowledge of chemicals, with our core competence in emulsion polymerization adhesive technology, enabled us to achieve the perfect combination of paper and adhesive; thus, the creation of Stick'n sticky notes!" said Dr. Alex Kuo, the CEO of HOPAX.

New Identity and Value

For the past 36 years, Stick'n has built a solid foundation by offering a variety of innovative self-stick products to our customers. In 2011, we moved forward with the renewed energy and confidence that the fresher, more modern and colorful Stick'n logo visually represented. We developed our commitment to our new slogan, "Sticking Close to You," which reflects the essence of the brand promise: to provide creative products which can change how we live our lives, as they become assistants, helping people to enjoy more wonderful and convenient ways of communicating messages to one another.

The rebranding not only conveyed the Stick'n values to customers, but also successfully increased sales to our global business partners, because of higher brand awareness.

Innovate with Stick'n

Stick'n is well recognized as one of the most innovative partners for many of our customers when they aim to grow their business. Stick'n established this presence by insisting on inventing at least three new products annually since 1987. Film Index and Clearnote™ were the first of many breakthroughs in extending paper-based sticky notes to transparent and writable plastic material. Self-stick Infoboard™ changes our perception from notes that are sticky, to creating a surface that something can be stuck on to. "Penfree" Notes provide a note that does not require a pen!

Over time, Stick'n has developed from modest beginnings to become the second-largest sticky notes manufacturing company in the world, with the reputation of "always offering something new".

Join Us

We are dedicated to bringing more innovative products to consumers and customers, with continuous quality improvements. In addition, our Partnership Marketing Service Development Program has been developed to provide support to our distributors worldwide. Many of the Stick'n partners have used the marketing materials that we have created to achieve a higher sales; this set of versatile tools enhance communications to consumers.

With the best interests of our customers at heart, we are poised to fulfill your needs, today and in the future. We welcome you to join us.

ESG

HOPAX adhere to the mission statement of "Making the World a Better Place".

We have a vision of "Innovation, Sustainable Development, and Contribution to Society".

HOPAX combine our core values and capabilities, to formulate a corporate strategy framework that is proposed, discussed, and finalized by senior managers. Then, we develop short, medium and long-term goals, with action plans at all levels.

Sustainable Development Goals

Hopax's Strategy is composed of four main dimensions: Environment, Supplier Relationship, Governance, and Society.

Environment

- Responses to climate change
- Green product R&D
- Agricultural technology development
- Green production design
- Sustainable environmental protection

Supplier Relationship

- Sustainable supply chain management
- Strategic partnership

Governance

- Responses to climate change
- Occupational safety and health management
- Comprehensive compensation and employee welfare system
- Gender equality

Society

- Dedication to social well-being and charity
- HOPAX Culture and Arts Foundation

CSR Award from
CommonWealth Magazine,
the most influential financial
news media in Taiwan.

In response to Sustainable Development Goals (SDGs), set up by United Nations in 2015.
